

Founded in 1995, JFK Lancer is a historical research company specializing in the administration and assassination of President John F. Kennedy. JFK Lancer works with the largest and most active group of President John F. Kennedy historical researchers.

Our past conferences have hosted many of the eye witnesses of the assassination and the most respected of authors and researchers from around the world. We subscribe to the values of patriotism, excellence, integrity, and dedication to the revealing of truth surrounding the assassination of President John F. Kennedy.

Our goal is to make research materials concerning Kennedy's assassination easily available to everyone. Our prime concern is the accuracy of history and the true story of the turbulent 1960s.
